

Danyal Munir

Senior React Native Developer (React Native)

abbasidani82@gmail.com | +92 315-050-2846 | [linkedin.com/in/danyal-muneer25](https://www.linkedin.com/in/danyal-muneer25) | github.com/Daniabbasi25

OBJECTIVE

Senior React Native Developer with **5+ years** of experience building cross-platform mobile applications for iOS and Android. Skilled in delivering scalable, high-performance apps using TypeScript, Redux, and CI/CD pipelines. Proven track record with apps serving **50K+** active users and **10K+ downloads** on Google Play. Experienced leading cross-functional Agile teams with hands-on expertise in Firebase, AI integrations, React Native Reanimated, and performance optimization.

SKILLS

Languages	TypeScript, JavaScript (ES6+), JSX
Mobile	React Native CLI, Expo SDK, iOS, Android, Cross-Platform Architecture, Server-Driven UI (SDUI), Deep Linking
Animations	React Native Reanimated (v2/v3), Gesture Handler, Shared Values, Worklets, Animated API
State Mgmt	Redux, Redux Toolkit, Zustand, React Query, Context API
APIs	GraphQL, REST APIs, Axios, JSON, Third-party API Integration
AI / ML	OpenAI API, LLM Integration, On-Device ML (TensorFlow Lite), AI Chat UI, Generative AI
Backend / DB	Supabase, Firebase (Firestore, Auth, Crashlytics), MongoDB, Node.js, WatermelonDB
Testing	Jest, Detox, Test-Driven Development, 80%+ coverage
DevOps / CI	GitHub Actions, Fastlane, CI/CD Pipelines, App Store & Google Play Deployment
Security	Guardsquare, Encrypted Storage, 2FA, Secure Token Handling

WORK EXPERIENCE

TenTwenty Digital Agency | Senior React Native Developer

Sep 2024 - Present, Islamabad

- Engineered and maintained React Native modules for the ADGM app (Abu Dhabi Global Market), a UAE financial regulatory platform serving 50K+ active users.
- Architected Server-Driven UI (SDUI) system enabling dynamic backend-controlled layouts, cutting mobile release cycle time by ~40%.
- Implemented Reanimated v3 animations using shared values, worklets, and useAnimatedStyle targeting 60 FPS on mid-range Android devices.
- Integrated AI-powered in-app chat using real-time APIs and third-party messaging SDKs (Abuzz), significantly boosting user engagement.
- Applied Guardsquare for code obfuscation and security hardening, protecting proprietary business logic.
- Authored comprehensive Jest unit tests and Detox E2E tests, achieving 80%+ code coverage and reducing regression bugs by ~30%.
- Managed CI/CD pipelines via GitHub Actions and Fastlane, reducing manual release effort by 50%.
- Conducted 10+ technical interviews and directed PR code reviews enforcing clean architecture across the team.

MaxRemind | Senior React Native Developer, Team Lead

Mar 2022 - Aug 2024, Rawalpindi

- Led a cross-functional Agile team of 6 developers to ship 4-5 production iOS and Android apps on time, setting architectural direction and mentoring engineers.
- Designed and executed AI-assisted features in a healthcare app, including smart reminders and LLM-powered data summarization, reducing manual data entry by ~35%.
- Built a reusable component library of 30+ shared UI components, cutting feature development time by ~25% across all projects.
- Unified 5+ third-party API integrations (payments, push notifications, analytics) into a single standardized service layer.
- Maintained 95%+ on-time feature delivery rate across 2+ years, managing sprint planning for a team of 6.

- Enforced security best practices including encrypted storage, secure token handling, and safe API communication with zero reported incidents.
- Streamlined GitFlow branching strategy, reducing merge conflicts by ~40% and improving team collaboration.

NESL-IT (SMC) Pvt. Ltd. | React Native Developer

May 2021 - Feb 2022, Rawalpindi

- Shipped cross-platform iOS and Android apps in TypeScript and JavaScript across 3+ simultaneous client products.
- Managed state with Redux and Context API. Integrated REST and GraphQL APIs via Axios into consistent service modules.
- Built responsive, pixel-perfect UI components from Figma specs with consistent results across iOS and Android.
- Authored unit and integration tests ensuring 70%+ code reliability. Resolved performance bottlenecks improving rendering speed by ~20%.
- Configured React Navigation (stack, tab, drawer) supporting 10+ screens per app with zero navigation crashes.

Alright Tech | Junior React Native Developer

Jan 2020 - Apr 2021, Rawalpindi

- Contributed to 3+ mobile app projects in a collaborative Agile team, taking full ownership of UI screens and feature modules from design to deployment.
- Assisted in REST API integrations, navigation setup, and state management. Progressively took on complex features over 16 months.
- Participated in code reviews and sprint ceremonies. Completed 5+ self-initiated performance improvement tasks.
- Expanded proficiency in Git, React Native CLI, and mobile performance optimization across diverse project types.

PROJECTS

ADGM Mobile App (React Native)

- Financial regulatory platform for Abu Dhabi Global Market serving 50K+ active users across iOS and Android.
- Shipped SDUI architecture, Reanimated animations, AI chat integration, and Guardsquare security hardening.
- Achieved 80%+ test coverage via Jest and Detox. Zero post-release critical bugs across multiple release cycles.

Finovaa - Money Management App (React Native)

- Full-stack personal finance app with income/expense tracking, balance trend graphs, and sub-account budgeting.
- Achieved 10K+ downloads on Google Play. Integrated Firebase (Firestore, Auth, Crashlytics) and Google AdSense monetization.
- Implemented Reanimated for smooth animated chart transitions. Available at finovaa.app

EDUCATION

Bachelor of Science in Computer Science (BSCS)

PMAS Arid Agriculture University, Rawalpindi | Oct 2018 - Aug 2022

LANGUAGES

Urdu: Native **English:** Proficient (C1): Speaking, Reading, Listening
